SKELETON FOUND

Residents of Aberdeen Thing Bones Those of Murder Victim

Aberdeen, Md., April 21.—Daniel Harmon picked up a shoe last week along Grey's Run, and found that it contained the bones of a human foot. Upon further investigation, he found the entire skeleton of a man. Coroner McGuigan, of Perryman, was notified but an inquest was unnecessary and he ordered the skeleton buried on the same spot where it was found.

A band of gypsies camped on the run last fall, and it is thought that this was one of them that had either died of disease or had met with foul play. There was a great deal of quarreling among the band, and it is the opinion of a great many that the man was murdered.

Rep. Hoch Hopes to Have Impeachment Ready This Week.

Washington, April 21.—Impeachment proceedings against Assistant Secretary of Labor Post will be taken up before the House Rules Committee the latter part of this week, according to Representative Hoch (Republican), Kansas, who introduced a resolution last week paving the way for impeachment.

Mr. Hoch and members of the Immigration Committee are preparing a case from records now in possession of the committee. Its experts have been examining many of the 3,000 cases of aliens arrested, many of whom, it is charged, have been improperly released by order of Assistant Secretary Post. Investigation of these cases involves careful examination of proceedings under which they were arrested

NAUGHTY WIDOW TEMPTED

Falls Shamelessly Abandons Baby for Wild Night on Pike

Mrs. Gyp, the big elephant with the Johnny J. Jones Exposition and for years a perfect lady and mother finds herself in disgrace this morning after a wild night of dissipation For years she has watched the crowd enjoy life under the bright lights of the "Joy Plaza," while she—well, she was only an elephont. But temptation comes. The heavy rains loosened the stake to which she was tied and there was nothing left to do but to walk away, and she did.

Out on the plaza, she sees a "hot dog" stand and immediately investigated. Tearing the canvas covering away, turning over the stoves, she completes the havoc by eating several pounds of the owner's choicest candies. Murphy's Restaurant looked promising but a bull dog tied near barked and frightened the lady away. Idly strolling on down the plaza she finds Eddie Madigan's peanut stand—oh, joy, elephant heaven food, and wades in. She eats the entire stock and disgruntled because there is not more, she wrecks the joint.

Meanwhile her baby misses its mother and starts crying—even elephants put out the same "nightly wails" which awakens Captain Mooney, her keeper. He investigates and finding Mrs. Gyp gone, starts a search. Following the tracks he over takes her near the Old Folks Home Today the lady finds herself the topic of awful gossip in animal circles at Jones, but she doesn't seem to mind it.

Gyp, is about 80 years old, and formerly belonged to the John Robinson Barnum and Wallace Shows. She has visited nearly every important town in this country and Canada and has made one trip into Mexico.

Johnny J. Jones says it was through Gyp that he discovered Ed. R. Salters ago as "Ed" was with the Wallace Show while Gyp was a member.

TO CONTINUE STRIKE

Jersey City, April 21.—Approximately 2,000 striking switchmen and shopmen, meeting here yesterday decided to remain on strike "until further instructions have been received" from the strikers committee which was sent to Washington to obtain a hearing before the Railroad Labor Board.

A statement issued at the close of the meeting by James T. MacLean of the strikers executive committee said 70 per cent. of the men employed by railroads in the New Jersey district were still on strike and would disregard orders issued by railroad brotherhood officers.

Strikers' committees which have visited workers who returned to their posts "following the threat of the railroad managers to fill their places" reported the men had again quit their jobs, the statement said.

Railroad officials to whom the strikers' announcement was read said: "Regardless of what the strikers claim we are operating our trains and accommodating the public."

AGAIN MEETS CABINET

Various Matters Considered at Second Session Since Illness

Washington, April 21.—President Wilson met with his Cabinet yesterday for the second time since his illness interrupted the regular schedule of meetings last fall. As on last Wednesday, when a special meeting was called to consider the railroad strike, Cabinet members went to the President's study in the White House instead of the regular Cabinet room in the executive offices. It was said that various matters, more or less of a routine nature, were considered.

The meeting lasted for an hour and a quarter. It was said that the railroad strike situation and international problems affecting Mexico and Germany were mentioned only in a general way in the discussion of the variety of topics called to the President's attention by his secretary.

"That's enough," said Justice Simpson when Moskowitz finished. "I'll hold Miller in $1,500 bail for the grand jury."

Moskowitz, who plays in the hotel grill, lost his 'cello. A few days ago a man took a 'cello to Julius Kessler who runs a music store at 220 East Eighty-sixth street, and offered the $600 instrument for $150. A friend of Kessler's recognized the 'cello as the one Moskowitz had lost.

Lexington, Ky., April 21.—Keith Phillips, a 16- year-old white boy, held since Saturday in the Danville jail on suspicion of having been implicated in the kidnapping and attack on 7-year-old Willie Trimble, confessed yesterday he alone abducted the boy and attacked him with a hammer, according to Sheriff M. J. Farris and Deputy Sheriff Polk Critchfield.

Phillips, the officers say, accompanied them to the spot where he captured the boy and struck him.

Phillips exonerated Lucein Jenkins negro, whom a mob attempted to lynch Saturday night when he was arrested as a suspect. Phillips had steadily maintained his innocence. Jenkins is in Lexington jail for safe keeping.

Willie Trimble, who is in a hospital with his skull fractured from blows inflicted by the kidnapper, insists that a negro, who was with a white boy, hit him,

FORTY PER CENT FREIGHT MOVING

Passenger Service Around New York Now Normal

ULTIMATUM IS ISSUED

Lack of Switchmen and Other Yard Employees Chief Handicap Say Officials

New York, April 21.—Freight, excepting food stuffs, remained practically at a standstill yesterday in the zone surrounding New York City, Although still crippled by the "outlaw" strike the railroads, with their passenger service approaching normal, are concentrating all their efforts on freight movements, and they declared that a steady improvement might now be looked for.

Lack of switchmen and other yard employes, and particularly in the belt along the New Jersey water front is the chief handicap in the attempt to restore service. The New Jersey strike leaders say that 70 per cent of the men are still out. The railroad officials while they will not give figures, assert that this estimate is much to high. The strike leaders declared in the afternoon that the men would remain out any way until a report had been received from the commission sent to Washington.

The Pennsylvania issued a new ultimatum to their employes who are stil. out, requiring them to return to duty not later than 12:01 a. m. tomorrow.

OIL IN BRITAIN'S GRIP

Americans Will Depend on England for Petroleum Supplies

Washington, April 21.—Frequent statements credited to English sources that the British Empire will soon have a stranglehold on the future petroleum supplies of the world are borne out by information in possession of various departments of the Government.

No disposition exists to blame Britain for her exploitation, they are regarded as an effort to assure fuel supplies for her own warships, commercial fleets and industries. But the activities of Britain, coupled with those of other countries, are used to warn America that her own supply of petroleum is dwindling, and that before long she will be dependent on foreign supplies.

Acquisition of foreign oil lands by Americans is urged by government observers to insure fuel for the new merchant fle more than 6 million automobiles, a navy which, it is asserted will be the largest in the world, and to provide the vast quantities of petroleum required by industry. Only in this way, it is asserted, can America avoid a tremendous toll in profits to the financial interests of other countries in years to come.

It was recently learned by one Government agency, for instance that English interests are trying to get large concessions in Peru and exclusive rights to explore for oil there. It was said today by one authority there is not a section of the world likely to produce oil where British interests are not seeking arrangements which will enable them to control oil from the well to the consumer.

British economists are responsible for the statement that with the exception of Mexico, and to a lesser extent, Central America, Great Britain's control of the future oil supply is secure. They assert British and Dutch companies will dominate the oil fields of Russia and Roumania, when production there recovers from curtailment caused by the war. British virtually control the Persian fields, and French and British are rapidly acquiring oil lands of the Near East. The claim is made Britain's position in Mexico is as good if not better than America's, and that the British have the advantage in Central America, Venezuela Trinidad, and of course in the British territory of Egypt and India.

INGOMAR THEATRE

Dolores Cassinelli is the star at the Ingomar Theatre today. The newest picture of this radiant Cameo Girl is "Tarnished Reputations," which is said to be a highly dramatic and tense story depicting the efforts of a young girl to overcome the obstacles Fate placed in her path.

"Tarnished Reputations," is an original story by Leonce Perrer, also the producer of the feature. Mme. Alice Blache, the first woman photoplay director, and one of the foremost in the industry, directed the picture. Miss assinelli is given strong support by Albert Roscoe, George Deneubourg and Ned Burton.

I Don't Believe In That

Do you know that one of my patients tells me that such was the answer received when he suggested that a sick friend try chiropractic—Being questioned the friend admitted that he did not know what chiropractic was. Here you see was a case of condemnation before investigation. But such is the world, always was, it used to be flat once, flat as a pan cake—A medical doctor of several years experience was losing his little 6 months old boy, dying with the Flu, in spite of several medical men in Washington, called in consultation—Three days and nights the little life hung in the balance, medical skill had failed. The father had heard what he considered absurd claims of what chiropractors could do in cases of flu and pneumonia; but his own little boy was dying, his own baby—He called a chiropractor and wonders of wonders, in a couple of days the baby was fast on the road to health—Did this open the doctors eyes? Yes, he went and took a course in Chiropractic, is now practicing that science, absolutely without medicine and is building up a magnificent practice in the city of Washington. There is no one so blind as he who will not see. But when a call for a life of some dear one comes right home, ethics and prejudice must go. I am here to accomodate the people of Alexandria.

Allied Note Semi-Official—French for Disarmament of Germany

Paris, April 21.—The German government has received an identical note from the allied powers, warning her of the effect on the revictualing of the country the establishment of a government opposed to executing the Versailles treaty would have, according to a semi-official statement issued yesterday. The note was presented to the German undersecretary of foreign affairs by the representatives of the allies in Berlin. The statement says:

"The action proposed by the British government, having for its object to warn Germany the consequences the establishment of a government hostile to execution of the treaty would have with regard to revictualing the country was taken last evening. An identical note was presented to the undersecretary of foreign affairs by the representatives of the allies."

The Havas agency says the foreign affairs committee of the chamber of deputies today unanimously adopted a resolution declaring that "the chamber is resolved to obtain in the interest of the general peace and the establishment of normal relations between all nations absolute disarmament by Germany. The resolution invites the government to demand that the disarmament clauses of the peace treaty be strictly and effectively executed. The committee instructed its president, former Premier Barthou, to inform the government of its action.

50-CENT SUGAR PREDICTED

Wholesalers Aver Present Prices Will be Exceeded; More Evidence Sought

Philadelphia, April 21.—Sugar will soon be sold at fifty cents a pound in all parts of the United States, according to statements made yesterday by prominent local wholesalers at a meeting.

Robert J. Sterret, Assistant District Attorney, gave out the statement that warrants for half a dozen alleged sugar profiteering jobbers will be issued today.

A conference at which Mr. Sterret and Harry B. Pierce, agent in charge here for the Department of Justice, will go over the evidence compiled by five investigators detailed by Frank B. McClain, Fair Price Commissioner, was to have taken place yesterday afternoon, but was postponed at Mr. Sterret's suggestion.

"The Lever act will be invoked," Mr. Sterrett said, "and since the investigation is not complete, this conference may not be the last of its kind."

While it was not made known definitely to what extent these accused jobbers overcharged retailers, it was indicated that as much as 27 cents a pound was paid for sugar within the last week. Jobbers are entitled to a half-cent profit over the refiner's price, and the refiners' quotations averaged 17 1-2 cents.

COMMITS SELF TO PRISON

West Chester, Pa., April 21.—Harry Green, 19, of Nottingham, committed himself to prison here yesterday and will stand trial at the next session of Criminal Court.

Green, who is a farm worker, was charged with having stolen two bushels of wheat from a farmer and when arrested his employer, who needed his services on a farm, agreed to become his bondsman for his appearance for trial. The bond was accepted by a Justice of the Peace, but Saturday Green completed his work on the farm and the employer repaid him for his services by withdrawing the bail bond.

Instead of taking "French leave," Green chose the honest course, went to the Magistrate and surrendered. No officer was at hand to bring him here to prison and he walked the entire distance of 22 miles to the office of District Attorney W. Butler Windle, where he requested that he be committed, explaining the predicament in which he had been placed by his employer. A commitment was furnished him and he went to prison, presented the papers to Warden John L. Glower and is now in a cell.

ANGRY MOB HANGS NEGRO

Surrounds Jail and Seizes Alleged Assailant of White Girl

Pittsburgh, Kan., April 21.—A mob estimated to have numbered 1000 persons late yesterday surrounded the jail at Mulberry, near here, seized a negro identified as having attacked a young white girl here yesterday morning, and hanged him to a telegraph pole.

The mob made no attempt to molest a white youth who, with the negro, was captured by a posse this afternoon.

Immediately after the lynching the boy was removed from the jail by authorities, who did not announce their destination.

The attack upon the girl occurred while she was on the way to Mulberry from her home near that place. She was found tied to two trees. Her throat was slashed, but, according to physicians, she probably will recover.

After their capture by the posse the negro and the youth were taken back to Mulberry, where officials announced both the girl and the boy identified the negro.

While members of the crowd held the officers back, others pried the bars from a window, and secured the negro.

ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Alexandria people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. M. E. Williams, 523 Oronoco Street, Alexandria, says: "I was so bad off with pains in my back I was about all worn out. I would put my hands on my back trying to relieve the pain through my kidneys. When I bent over I could hardly straighten again. This weakened me very much and made me so nervous I could hardly stand the least noise. Dizziness affected me when I bent over and everything would turn black. My kidneys didn't act at all right. I tried different things such as purting turpentine on the small of my back until it would blister. Nothing did me any good until I started using Doan's idney Pills. I kept getting better right along and was soon cured."

$65 for a Suit--*Why?*

Sixty-Five dollars practically represents the buying power of $30 back in 1914. No matter what you purchase—furniture, food or clothing.

When you stop to think a moment:

—the shortened hours of labor production.

—the rapid wage increases.

—how the four and a half years of war ate up the world's surplus of raw materials so that now the supply cannot begin to catch up with the demand.

—after thinking that over you wonder HOW it is possible to obtain as good clothes at $65 as were offered you for $30 in 1914, or $25.

When you come and see the splendid, sincere, elegant craftings in Kuppenheimer clothes this Spring you will scoff at the whispered propaganda you hear.

They are first-class quality, thru and thru. They are superbly tailored. They reflect good style, he-man style, American style that is in good taste.

Don't take a chance this season. The dividing point between money's worth and sham is very marked—after the first day's wear of the sham. There are many substitutions and adulterations—created to take advantage of the unwary and men who have not stopped to figure out conditions as they are.

Kuppenheimer good Clothes

are money's worth any way you look at them. They are all-wool, pure all wool. Their inside, unseen materials—very important—as good as their outer fabrics. They are sewn with pure silk. More—they are thoroughly pre-shrunk and connot warp their seams or twist after being worn the first time in the rain or fog.

You will be just as proud to wear these good clothes as we art to sell them. Not only because of the better appearance they give you—but because they are the cheapest clothes in the long run, they wear longer—and hold their shapeliness and style to the very end.

SPECIALLY PRICED $50—$55—$60

RECKLESS AUTOISTS

The frightful accident at Glen Allen, near Richmond, last Sunday night, caused by a reckless youth attempting to cross a railroad track when it was apparent a passenger train was approaching, has cast a gloom over the neighborhood of the scene of the accident, as also in Richmond. The machine was in charge of a seventeen year old youth named Alfred Broaddus While he was seriously injured, he may recover, but four young women, occupants of his car, lie stark and stiff in death, the result of his foolhardiness.

Such accidents often occur, notwithstanding legends—"Stop, Look and Listen"—are displayed at grade crossings.

Broaddus is the only survivor of the five who were in the car when it was struck by the train. He lies in St. Elizabeth's Hospital, Richmond, suffering with a fractured leg and is otherwise injured.

As has been stated in the Gazette, Coroner J. Fulmer Bright, of Henrico county, held an inquest over the bodies Monday. It was testified that the train whistle and bells were ringing before reaching the crossing, and that young Broaddus saw the train approaching but thought that he could make the crossing. The party which was returning from a young people's meeting at the Glen Allen Baptist Church were preceded by Charlie Fleet, a 16 year old boy, and acquaintance of Alfred Broaddus.

He testified that he saw the train approaching and cried to Broaddus to stop, but Broaddus did not slacken the car's speed. He was driving a Ford Sedan, with the windows closed. Fleet testified that the Ford crossed the southbound track and was met squarely on the northbound track by the train, which stopped instantly.

W. C. Coleman, an insurance agent was sitting in his automobile beside the crossing when the tragedy occurred. He saw Fleet drive up and stop, and he saw Broaddus continue across the track, to be hit by the train.

Engineer J. E. Adams, Conductor R. Waller and Fireman Mallory, who were in charge of the train, also appeared at the inquest. The engineer and fireman testified that the whistle was blown before reaching the crossing and the bell was ringing.

The train was not going at an excessive rate of speed they testified.

LANDLORD AND TENANT

Attention has been made of the success of the anti profiteering rent law in New York. It was shown that tenants had been protected from owners and how innocent victims were saved from evictions at the hands of unscrupulous speculators. Now we have several incidents which tend to prove that the laws may also be used to protect honest landlords from unscrupulous tenants. In one case 17 tenants in one poor building refused to pay any money because the owner—who is a woman, had made a slight increase in the rent. It was proven that she had lost money on her property last year, and that she was compelled to go out to work in order to make up the difference. The Judge ruled that the tenants would have to pay the rent or move, and because of their belligerent attitude he declined to grant the usual notice.

As is suggested by a cotemporary, these laws must be pretty good when they are sufficient to protect landlord and tenant alike. Also these incidents go to prove that all owners of property are not grasping profiteers. There is no doubt whatever that citizens here and there have been squeezed in the matter of property as they have been in other things, but it is a mistake to assume that all owners of real estate are imposing upon the people. Building should be encouraged wherever possible, co-operation should be sought, and it is the duty of those in authority to do all in their power to protect tenants but the incidents in New York city prove the importance of discrimination in passing judgment where there are charges of profiteering."

POTATOES STILL SOARING

Potatoes, as was sturgeon, highly respected as the "poor man's food," are getting in the class that porterhouse steak used to be in.

With news from Brownsville, Tex., that potatoes still in the ground were selling at $1.32 a peck, and from Ellicott City, Md., that they were $5 a bushel. Dealers agree the whole potato market is demoralized and that prices are higher than for many years.

A small crop and the railroad strike were said to be the principal reasons for the excessive prices. Inability to get farm labor is one reason for the small crop.

Seed potatoes yesterday were quoted wholesale at $6 a bushel in Baltimore. The price of such potatoes as the McCormick and Twentieth Century variety, fluctuated between $3.90 and $4.20 a bushel or 6 to 7 cents a pound.

It is generally believed, however, prices soon will return to normal. The price quoted just before the railroad strike was 3 1-2 cents a pound, or $2.10 a bushel.

EXPENSIVE OVERALLS

Overalls at $43.50 a pair is the latest quotation in the Nation's war on high priced clothing.

The following newspaper advertisement inserted by a Newark, N. J., merchant, appeared yesterday.

"Substantial overalls in fashionable one piece models, made of strong, serviceable materials, suitable alike for dress, for office work, for bricklaying, for banking, boilermaking, bookkeeping, fishing, school, gardening, banquets, church and the theatre. They are pleasingly priced as follows: Plain overalls, $2.25 to $3.50; overalls with belts and solid gold, sterling silver and French enamel buckles, from $40 to $50.25; overalls with rhinestone buckles, $43.50.

THE PROFITEERS

(Communicated)

There are few subjects these days more generally discussed and written about and of less importance to the American people than the subject of profiteering which greedy if not vicious practice everyone, including those benefitting thereby, admits is rampant throughout the country. Innumerable excuses for the existance of this menace are being daily offered—everyone concerned (except the ultimate consumer) vigorously attempting to lay the blame for this sad condition of affairs at the door of the other fellow, especially the fellow higher up, each declaring that his individual business is in no wise responsible and that his profits are but just and equitable, even going so far as to assume an attitude of wounded resentment when one has the termerity to suggest the possibility that, through no fault of the retail merchant, for example, present day high prices are automatically ever so slightly adding to that merchants net income.

The quotation of Abraham Lincoln "You can fool some of the people all of the time and you can fool all of the people part of the time but you cannot fool all of the people all of the time," I believe, aptly expresses how the people feel about this profiteering business and, while all have been fooled for a time and some will continue to be fooled, the large majority of the people have now become firmly convinced that, all along the line, practically every individual and institution financially interested in the commercial handling of all commodities resorts to profiteering to just the extent the traffic will bear—no more or no less, the retail handler being not one iota more exempt from this accusation of common graft than the original producer or manufacturer, the wholesaler or middleman, a striking example of the proof of this contention being the recent raise in price of from the old price of 5 cents to the present price of 8 cents plus tax per glass of Cocoa Cola resorted to by practically every retail dealer in this city, the excuse offered for this advance in price being that the manufacturers of Cocoa Cola have advanced the price of this commodity to the extent as to render the above quoted advance in retail price but equitable. The writer, however, begs to take issue with this contention on the ground that it is a matter of common knowledge that the advance in price of Cocoa Cola to the retailer is but 40 cents per gallon. It is estimated that one gallon of Cocoa Cola will make 100 glasses of the same as served but in order to be conservatice, let us assume that 80 glasses of Cocoa Cola can be served from one gallon of the mixture as received by the retailer. It then obviously becomes a mere matter of simple mathmatics to calculate that each glass of Cocoa Cola served at 9 cents per glass costs the retailer not more 1-2 a cent per glass more than the same concoction did when sold at 6 cents per glass. Why then the additional charge of 3 cents?—the writer is informed on good authority that the Cocoa Cola manufacturers themselves recommend that Cocoa Cola now be sold by retailers at 7 cents, including tax, per glass. It is clear to the writer's mind that the answer can only be found under the caption, "PROFITEERING."

Cocoa Cola should, perhaps, be classed under the head of non-essential commoditis, but if profiteering is resorted to in the sale of one commodity, it is but reasonable to assume that the same practice is being followed with regard to the sale of other and more essential articles of merchandise, the Cocoa Cola case being cited with a view to illustrating the salient points intended to be brought out in this article.

Hundreds of Carloads Held Off Chicago Market to Influence Prices

Chicago, April 21.—With potatoes selling above $7 per 100 pounds and hundreds of cars rotting in the railroad yards and on sidings within hailing distance of the city, the Federal Government has finally started steps to relieve the abominable situation.

Libel warrants were asked of Judge Landis yesterday for several cars of potatoes now being held in the yards here. It is claimed they are being kept off the market to influence prices and that the heavy demurrage charges will be passed along to the ultimate consumer.

It is the plan of the Government to seize and sell this great stock of potatoes in bond, or to permit the owners to sell them at what the Government will fix as a reasonable price. This may not end the matter, as there are hints of prosecution for conspiracy. It is said the Government believes the speculators took advantage of the switchmen's strike as an excuse for withholding supplies while the prices went skyrocketing. The grand jury has summoned 16 dealers to appear and bring in their books.

The sugar "famine" hit Chicago again yesterday, the price going to 30 cents, and sales are being limited to half a pound to a customer. Blame for this condition is said to rest with certain departments in Washington.

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

LOSES ITS MOONSHINE

Travelers on the Seminole Limited Will Have to Quench Thirst on Another Train

Chicago April 21.—Nine disconsolate gentlemen of color, the dining car crew on the Seminole Limited, crack Illinois Central train to Florida rent the air with their lamentations yesterday. They had two reasons for their poignant grief. One was that they were to be held in bond for trial as bootleggers and the other, which was more severe, was that several kegs of "good ole g'age cohn juice was to be obfisculated."

Prohibition agents received a tip that travelers on the Seminole Limited were unusually merry and that there was no perishing from thirst between Chicago and Augusta, Ga. One of the agents went out to Kankakee to meet the train and keep watch on the cooks and waiters. At Kankakee he saw one of the crew drop off a 10-gollon keg which was quickly snatched up by a waiting negro and put in a taxicab. It was immediately confiscated and put back on the car. When the train arrived in Chicago the crew was permitted to scatter to their homes and a search of the dining car yielded three 10-gollon kegs of rare old Georgia moonshine.

HURLED THROUGH DOORS

Carpenter Blown Over Fence; Woman Thrown Across Room

Philadelphia, April 21.—While repairing a house at Reese street and Indian avenue yesterday, a carpenter was blown out through the door of a shed behind the house and over a seven-foot wall into the street, when a member of the family exploring the cellar for gas leak found it—with a lighted match.

A 17-months-old baby boy sleeping in the kitchen, was hurled out through the open back door when the first explosion caused another upheaval in the gas range. The child Edward Schipps, was found unhurt.

His mother, Mrs. Lena Schipps, who was in the kitchen, was thrown across the room by the exploding range. She received bruises.

William Carr, the repairman, picked himself up after his sudden flight and discovered he had only been slightly bruised.

BUT WHO GOT THE WORM LATEST FISH STORY

Winstead, Conn., April 21.—The early bird gets the worm, but listen—

At 7:10 a. m. yesterday morning a robin flying low crossed Sucker Brook at its widest point where the stream enters Highland Lake, carrying in its bill an angleworm, which was extracted from the soil near the brook.

A trout in the brook saw the worm dangling from the robin's bill and jumped for it, clearing the water by several inches and striking the robin with such force that the bird nearly tumbled into the water. When the robin flew out over the lake the worm was missing, but whether the trout or the brook swallowed it eye witnesses did not agree.

HAD NO EVENING SUIT

On the occasion of the recent press ball—an annual occasion of note in Berlin—a committee waited upon Chancellor Bauer with an invitation.

"Thank you," he replied. "I shall come. But I see by your invitation that one is expected to wear evening clothes. I have none."

His appearance in a cutaway was regarded as one of the evidences of "the new Germany"; but one of the saddest features of the occasion to the old-times was that it was found necessary to publish in the newspapers a notice that gentlemen were expected to wear white ties and that ladies in high-necked gowns would not be welcomed.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

BIG LINERS SOLD

Yale and Harvard Bought by Los Angeles Syndicate

Washington, April 21.—The steamers Yale and Harvard were sold today by the Navy Department to agents for a Los Angeles syndicate which will put them back on the Pacific Coast run on which they were operating when purchased by the navy. The price for both vessels was $1,755,000.

Although it is understood the department paid more than $1,000,000 for each vessel, the amount for which they were sold exceeds their present appraised value by $55,000. Terms of sale were 25 per cent. cash and a like amount in annual installments beginning with the third year after purchase, with 4 1-2 per cent interest on deferred payments.

The Yale and Harvard were among the first vessels taken over by the Navy when this country entered the war. They are 407 feet long and have a maximum speed of 22 knots.

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile

II

The first thing a man wants to know nowadays, when he starts out to buy a car, is *how much it is going to cost him* to keep it running.

Its all very well to take some dealer's word about a tire—if you know *who he is* and his *object* in selling it to you.

Our object in selling U. S. Tires is to have you *come back* for more—and *be glad* that we sold them to you.

Pawpaw, Mich., April 21.—Mrs. Sarah Tabor, 80 years old, rocking easily in a large chair in the court room here, heard herself accused of taking a life which she had given. Attorneys prosecuting her on the charge of murdering her daughter, Maude Tabor Virgo, said the crux of the case was money.

With one exception the jury is composed of married men with children. They are mostly farmers.

BREAD FAMINE LOOMS

Baker's Union of Washington, Votes to Strike for $1 an Hour

The prospect of Washington house wives reviving the almost lost art of biscuit making loomed large yesterday following statements from headquarters of the Employing Bakers' Associaiton indicating that the demands of the Journeymen Bakers' Association for an increase in wages and reduction in hours by May 1 would not be granted.

Journeymen Bakers' Local No. 118 voted Saturday to strike May 1, unless granted an increase in wages from 67 cents to $1 an hour and a reduction in working hours from 8 to 7 and one half hours a day. President Schulties, of the employing Bakers' Association told the bakers crease in wages of only 11 cents an hour and that the reduction in working hours could not possibly be met. The vote to strike followed.

"The increase in wages asked is impossible," declared Schulties, "for the Department of Labor refused recently to grant us an increase in bread prices."

The refusal of the journeyman bakers' union to accept the increase ofered and their demand for new terms, has not been received by officials of the employing association, President Schulties announced last evening. He predicted that the demands would be turned down.

SURE RELIEF FROM ITCHING SKIN DISEASES

Will Never Come From Salves, Ointments, or Other Local Treatment.

A million gallons of lotions, ointments, salves or other forms of local treatment will not give any real permanent relief from skin diseases. Get this fact firmly in your mind, and there is hope for you.

If you have ever been afflicted with eczema, tetter, boils, eruptions, or other similar skin irritations you can appreciate the real terrifying discomfort that comes from these disorders. And what you are looking for is not merely temporary, palliative relief that may cause the terrible burning and itching to abate for awhile, but real genuine relief that shakes off the shackles of the disease, and restores the skin to its former healthy condition.

Follow the teachings of science, and you will learn that the skin is fed by the blood, and naturally, then, the condition of your skin will depend upon the condition of your blood. If the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are attacked at their source and removed from the blood.

Genuine relief, therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders, and it can be relied upon to cleanse the blood thoroughly of the germs which cause these complaints. S. S. S. is also a splendid tonic and system-builder, and it builds up and adds new vigor to the whole system.

Go to your drug store and get a bottle of S. S. S. today, and begin the right treatment for skin diseases. Then if you feel that your case requires special medical advice, you can obtain same without cost, by writing to Chief Medical Adviser, 13 Swift Laboratory, Atlanta, Ga.

COAL, LUMBER AND BUILDING MATERIALS

W. A. SMOOT & CO. INC.

EXAMINE OUR GRADES WHEN CONSIDERING PRICES:

With prices on Lumber and other Building Materials at their present levels, there are many items in the lower grades which can often be substituted satisfactorily and at a considerable saving.

We have become so much impressed with the possibilities of doing this to advantage that we are exercising the greatest care in buying only from those mills who pay the closest attention to the manufacture and grading of their lower priced stocks.

We ask our customers to examine these grades when buying as we believe they will find some excellent values, and a knowledge of what a carefully selected lower grade really is will often prevent the buying of a so-called higher grade at a little under the market price for the high grade, when it is actually a lower grade and can be bought as such.

STRIKERS' PEA REFUSED

Chairman of Wage Board Rules Applicants Must Return to Work

Washington, April 21.—Applications of unauthorized strikers for hearings on their demands for a "living wage" were denied yesterday by the Railroad Labor Board after Chairman Barton announced that while the board might file a complaint, but that it was for the board to determine whether the dispute was one which the law empowered it to adjust.

In its reply to Edward McHugh, of New York, who filed a brief as a citizen, asking a hearing on the ground of the "existing emergency," as well as a formal complaint, the board said it declined to authorize the application to be filed and docketed as a case because it did not comply with the law and with Order No. 1.

Chairman Barton announced that the same ruling applied to the applications of the St. Louis and Chicago yardmen's associations or any other body which had not complied with the rules adopted by the board. Order No. 1 provides that no complaint will be entertained from any parties who are not using every effort to avoid any interruption to the operation of the railroads.
